

PRESENCE OF WOMEN IN ARMY FAILS TO STOP RUSSIAN DESERTIONS

From Baltic to Black Sea Only One De-
tachment Shows Any Real Fighting

TARNOPOL AND OTHER TOWNS FALL

Russian Retreat in Galicia Is Precipitate and Continues;
Kerensky Strong Measures Apparently Not Yet in
Effect; Kaiser Witnesses His Men Force the Enemy
Back; Germans Win 200 Yards From British in France
After Using Liquid Fire.

Even the actual entry of women soldiers into battle on the East-
ern front has been insufficient to imbue the ranks of the recalcitrant
troops of the Russians with patriotism. They are still deserting in
large numbers in Galicia, leaving a virtually free, open road for fresh
advances by the Germans and Austro-Hungarians.

From the Baltic to the Black sea only at one point along the long
line in the southern Carpathians have the Russians risen to the occa-
sion. Here, fighting shoulder to shoulder with their Rumanian allies,
they have attacked and captured several positions and broken the
German line on a wide front.

Retiring Everywhere.

In Galicia the precipitate retreat of
the Russians continues almost every-
where from the Carpathian foothills to
the region around Tarnopol the gov-
ernment apparently not yet having had
time to put in force its strong repressive
measures which M. Kerensky has
promised to apply in order to stay the
debacle.

Nadvorna, in the fringe of the foot-
hills, Stanislaw and Tarnopol and num-
erous smaller towns have been taken
by the Teutons who are now approach-
ing the important railroad junction of
Buczacz.

The German emperor was a witness
of the important battle on the Galician
front and saw his men force back the
only effort made by the Russians.

Since the penetration of the German
line on a wide front near Krevin in
which the "command of death" com-
posed of women took a notable part,
despite which large numbers of the
Russians indignantly retreated to
their old positions, the Russians have
not stirred from their trenches again.

Attacks on Alsace Stop.

The hostilities on the Alsace front
where for weeks the Germans wasted
their men by hundreds in ineffectual at-
tempts to break through Geiselsberg
Pain's front have ceased. Early Wed-
nesday morning witnessed one of the
last attempts of the crown prince to
gain his objective. This was on the
Calonne plateau where an attack
was completely repulsed.

The Germans have been successful
in winning 200 yards of trenches from
the British near Monchy-le-Preaux
which they had bombarded violently
for several days past. In the capture
of the positions the enemy resorted to
liquid fire. Along the front in North-
ern Belgium the heavy artillery duel
continues but as yet there has been
no sign of either the Germans or Eng-
lish to make an attack.

British ships have bombarded Ze-
brugge and also the town of Bruges.

Evacuate Tarnopol.

Petrograd, Russia, July 25.—The
Russian guard corps defending Tarno-
pol retreated unoppressed by the enemy,
says the official statement issued by
general headquarters tonight but the
Petrograd and Semosky regiments
remained faithful to duty and are
fighting southeast of Tarnopol.

In the streets of Stanislaw there was
stubborn bayonet engagements the
population threw grenades on the re-
treating Russian troops.

Forced Back by Artillery.

The statement follows:
"In the direction of Volna, in the
region north of Krevin, our detach-
ments occupying a portion of the
enemy's trenches east of Minsk, re-
sisted their former powerful artillery fire.
The Guards corps, with the ex-
ception of the Petrovsky brigade, de-
fending Tarnopol, voluntarily and
without pressure from the enemy, left
its position and retired eastward, the
Petrovsky brigade remaining."
The enemy crossed to the left bank
of the Sereth in the region of Bere-
zovica, Czertory and Mikulicz, driving
back our troops to the Smykocz
river.

Gedrova Trendolia line, east of
Myskocz, great opposition was of-
fered to the Germans by the Smolen-
sky and Koltvansky regiments, which
developed counter attack.

Germans Continue Attacks.
"Between the Sereth and the Stripa
rivers, the Germans continued their
offensive, concentrating their chief ef-
forts along the western bank of the
Sereth. On Tuesday, toward evening,
our detachment held on the Roman-
ski-Tasskocz-Golodovce line.

West of the Stripa the Germans
penetrated our positions in the region
of Olecha, and toward Tuesday evening
our troops retired to the Pravluk-
Bajran-Bajran front.

"Particularly noteworthy was the
valiant work of two cyclist battalions,

which fought furiously against enemy
positions.

"South of the Dniester as far as
the Carpathians our troops continued
to retire eastward. On the Bystritsa at
Solotvina in the Stanislaw region our
rear guard engaged in action with en-
emy advanced patrols. Great support
was given to our infantry by Polish
Uhlans, who delivered six mounted at-
tacks against the German infantry.

In the streets of Stanislaw stubborn
engagements with the bayonet have
been fought with the enemy.

German Attacks Repulsed.

"Rumanian front.—In the region of
Bystro Patak our scouts entered the
enemy trenches. After capturing 38
prisoners and two machine guns they
retired to their own trenches. Enemy
attacks in the region of Olt were re-
pulsed. In the region of Kampulle the
Rumanian troops attacked an enemy
position and fought their way for-
ward."

Paris, France, July 25.—The of-
ficial communication issued by the war
office tonight is as follows:

"The activity of the two artillery
was very spirited, particularly on the
Casinate and Calonne plateaus, in
Champagne in the region of Moran-
villers, and on the left bank of the
Meuse. Everywhere our batteries very
aggressively took to task the enemy ar-
tillery. There was no infantry action
shells to the number of 567 were fired
into Rheims."

SENATE APPROVES NEW SHIP BOARD MEN

DO NOT ACT ON COLBY; CAPPS
CONFERES WITH GOETHALS

Washington, D. C., July 25.—Con-
firmation by the senate today of Ed-
ward N. Hurley's appointment to the
shipping board as successor to Wil-
liam Denman, who was forced out by
President Wilson, forecast an early
start on the government building pro-
gram. Mr. Hurley probably will meet
with the board tomorrow.

The nomination of Rainbridge Colby
to succeed Captain John B. White was
not acted upon today at the request of
Senators Wadsworth and Calder of
New York, who desire that an inquiry
be made regarding to his political
standing. No active opposition to his
appointment is looked for, however,
by administration leaders.

Rear Admiral Capps named by
President Wilson to take charge of
ship building as general manager of
the emergency fleet corporation con-
ferred today with Major General
Goethals, whose resignation the pres-
ident accepted yesterday and will start
to work tomorrow or Friday.

President Wilson had taken no ac-
tion tonight on the resignation of
Theodore Brent, vice chairman of the
board, who has been a staunch advo-
cate of Mr. Denman.

CANADA TO GET LARGE LOAN

Will Borrow \$100,000,000 to Offset
Heavy Trade Balance Against Her.

Washington, D. C., July 25.—Can-
ada is to borrow \$100,000,000 in the
United States to offset in part the
heavy trade balance against her in this
country. The loan will run two years,
bear interest at the rate of approxi-
mately 6 per cent, and will be made
by a syndicate of New York bankers.

Negotiations to float the loan have
been under way for some time. They
now only lack the approval of the
United States government.

Approval by Secretary McAdoo of
the Canadian loan marks a departure
from the previous policy of keeping
the American money market free from
the bond offerings of other belligerents.

Great German Air Raid On London

GERMAN AIR ATTACK
An exceptional photograph showing a squadron of German battleplanes
in an air raid over London, made on July 7, at which time the Taubes
dropped bombs that killed 37 and injured 141 persons, many of them women
and children.

TWENTY-FOUR SHIPS SUNK LAST WEEK

Six More Vessels Go to Bottom Than in
Previous Week; British Sub-
marine Sunk

The report of the week's sinking of
British merchantmen would have
shown a low record except for a couple
of days when the Germans had un-
usual luck. Even with these days the
total is considered to have been about
normal.

On the whole the navy may be said
to be fairly well satisfied with the
progress made against the submarine.
In the meantime the ship building
program is being pressed forward,
while in another month the weather
and daylight conditions will begin to
tell against the submarines.

London, England, July 25.—Twen-
ty-one British vessels of more than 1,
500 tons each and three of less than
1,500 tons each were sunk last week
by mines or submarines, according to
the weekly British admiralty report.

One fishing vessel was also lost.
The admiralty statement follows:
"Arrivals, 2,791, sailings, 2,791."
"British merchantmen sunk by fire
or submarine, over 1,600 tons, includ-
ing 22 previously, 21, under 1,600
tons, 3."
"British merchant vessels unsuccessful-
ly attacked, including three previ-
ously, 15."
"British fishing vessels sunk, 1."

Increase of Seven.

The announcement of the British
admiralty given above shows an in-
crease of seven vessels of more than
1,500 tons sent to the bottom as com-
pared with the report of the previous

week, when 14 were sunk. In the
smaller category the loss is one less
than that given in the report of the
previous week, while there was a fall-
ing off of seven in fishing vessels sunk.

British Submarine Sunk.

Berlin, Germany, July 25, via Lon-
don, England.—The British submar-
ine C-34 has been sunk by a submar-
ine it was officially announced today.
The sole survivor was taken prisoner.

The British submarine C-34 was
built in 1909, one of eight craft of iden-
tical design. She was a boat of 313
tons and a maximum draft of 12 feet,
with a speed of 14 knots above water
and 10 submerged. She was equipped
with two tubes and carried a comple-
ment of 16 men.

British Merchantman Sunk.

London, England, July 25.—The
British merchant cruiser Otway was
torpedoed and sunk in northern waters
on July 22. Ten men were killed. The
remainder on board were saved. This
announcement was made officially to-
day.

The British merchant steamer Ot-
way, indicated as in British admiralty
service, is doubtless the vessel refer-
red to. She was a steamer of 12,977
tons gross built in Glasgow in 1909.
She was 535 feet in length, 63 feet
beam, and 34 feet depth. She was
owned by the Orient Steam Naviga-
tion company of Glasgow.

FOOD CONTROL BILL GOES TO CONFERENCE

ANY TROUBLE WILL BE OVER THE
EXPENDITURES COMMITTEE

Washington, D. C., July 25.—The
administration food control bill was
sent to conference by the house today
with blanket instructions to disagree
to all senate amendments. The con-
ference will hold their first meeting to-
morrow, but it probably will be at
least a week before a report is ready.

Blocked in sending the measure to
conference yesterday by an effort of
Republican Leader Mann for a sepa-
rate vote on the amendment creating
a congressional war expenditures com-
mittee, the Democrats brought in a
special rule to force action today.

The principal trouble in conference
doubtless will center around the sen-
ate amendment for the war expendi-
tures congressional committee, for a
food control board of three members;
for a \$2 minimum price for wheat,
and to permit continuance of the use
of foodstuffs in the manufacture of
light wines and beers.

Administration leaders are certain
they can eliminate the proposal to
have three commissioners instead of
one, which will probably lead to
tiresome debate.

Indications are that the senate pro-
hibition provision may be greatly
strengthened. At least five of the sev-
en conferees are said to favor person-
ally a "bone dry" country, and Chair-
man Lister of the house conferees has
promised the prohibition men that he
will press the amendment.

SIXTY-TWO MINERS DIE IN EXPLOSION

CAUSE OF DISASTER UNKNOWN;
BOY'S HEROIC ACTION

Sidney, N. S., July 25.—Sixty-two
miners were killed in an explosion in
the Dominion Coal company's number
12 colliery at New Waterford today.
Thirty bodies, many of them terribly
mangled, had been recovered late to-
night and it was believed that the
gradual clearing away of the wreckage
would permit the removal of the
wreckage to that the other bodies
could be reached by morning.

The cause of the disaster had not
been determined tonight and the mine
officials were not prepared to make
any statement.

Among the heroes who went into
the mine was Jack McKenzie, a boy.
He went down to No. 6 landing, work-
ing there until he was forced to return
to the surface. Remaining for a short
time and recovering somewhat from
the effects of the gas, he returned, de-
spite the pleadings of his friends. He
was later brought to the surface on a
stretcher and died in the hospital.

QUENTIN ROOSEVELT TO FRANCE

New York, July 25.—Quentin Roose-
velt, youngest son of Theodore Roose-
velt, has sailed for France as a mem-
ber of a contingent of American avia-
tors, it became known here today.
Quentin, who is 20 years old, has been
in training as an aviator since April,
and has been recently made a lieuten-
ant.

HOPE OF A SHORT WAR IS FADING

Apparent Russian Collapse
Changes the Outlook

SITUATION IS SERIOUS

British and French Have Gained
No Key Point; Strength Need-
ed For Heavy Thrust

Washington, D. C., July 25.—No at-
tempt is made here to minimize the
seriousness of the situation on the
war theatres in Europe. The United
States is in the war and will go
through with it all, but any hope of a
short struggle has gone glimmering
with the apparent almost complete
collapse of the Russian war machine.

The development was not unex-
pected by the American army officers.
When the offensive of July 13 was
started by the Russian army, most ob-
servers were frankly skeptical that it
would produce any decided gain.

For the United States the Russian
collapse may have an immediate and
direct bearing. It will, if the German
general staff presses its advantage, re-
lieve additional German forces to bol-
ster up the western front where the
American forces will be used. The
German line in the east has not been
seriously impaired at any point, offi-
cers here believe. They do not claim
to know specifically the situation all
along the battle front, but they are
unable to see that the British or the
French have taken from the Germans
any key point which can be used next
year to hurl the Germans back on the
Rhine.

Reports received from France, official
and unofficial, so far as known, give
no cheering picture as to what
must be done. There appears to be
no doubt that the allied line can
stand against any force Germany can
bring against it. Even the Russian
disaster does not change that opinion,
but the question is to gather the nec-
essary strength for a successful de-
fensive.

The transportation problem before
the United States, both on land and
sea, is constantly increasing in scope.
It seems to be certain now that whole
railroad systems will have to be set
up in France to give the American
line the flow of war materials and men
it must have to press home an at-
tack.

It is the belief of some military men
here that no breach can be made for
many months through the German
lines of sufficient width on the entire
German front. Admitting all these
points, however, there is no sign of
discouragement among American offi-
cials. President Wilson's declaration
that the nation, not merely an army,
must be made ready for war, is being
carried out determinedly and appar-
ently with confidence.

DISCUSS METHODS TO RAISE MORE REVENUE

HEAVIER WAR PROGRAM DE-
MANDS NUMBER OF CHANGES

Washington, D. C., July 25.—While
awaiting for the forthcoming estimate
of \$5,000,000,000 or more under prepa-
ration by executive department to
cover war expenses senate finance
committee members discussed inform-
ally today how great a part of the
total should be raised by taxation. As
soon as the estimates are available
the committee will begin another re-
vision of the bill.

Sentiment was widespread today
that an increased in the tax levy
would be necessary.

The general feeling seems to be
against any basic change in the bill.
Congressional leaders generally favor
securing the additional taxes by in-
creased levies on income and war ex-
cess profits.

Hope is expressed for beginning
debate within a week or ten days.

Protest against various features of
the excess profits section were received
by the committee at its informal ses-
sion today. A delegation of railroad
executives argued that the country
would be more than benefited in view
of transportation needs to have the
railroads use their surplus in benefits
and extensions rather than use it in
taxes.

ELEOT ELLIOT CHAIRMAN.

New York, July 25.—Howard Elliot,
former president of the N. Y., N. H.
and Hartford R. R. was today elected
chairman of the Northern Pacific rail-
road. Prior to going to the New Ha-
ven Mr. Elliot was president of the
Northern Pacific.

BELGIAN MISSION IN CAPITAL.

Washington, D. C., July 25.—The
Belgian mission, headed by Baron Mon-
cheur, returned to Washington tonight,
after a 2,000 mile tour of the country.
The party has been away since July 1,
and has visited most of the important
cities of the middle and far west.

BUSBY'S LASSIE WINS THE 2:08.

Detroit, Mich., July 25.—Busby's Las-
sie won the annual renewal of mer-
chants' and manufacturers' \$10,000 for
2:08 grand circuit trotters today. The
event went through five heats.

FIRST U. S. DEATH OF WAR

Luis Reinhardt, Blue Jacket, Falls
Overboard from Ship.

Washington, D. C., July 25.—An of-
ficial dispatch from Paris made public
tonight announced that Luis Rein-
hardt, a blue jacket, was the first
American sailor or soldier to be buried
abroad during the war with Germany.
"As a matter of historical interest,"
said the message written by Lieutenant
Commander Sayle, attached to the
American embassy, "I desire to place
on record that the first enlisted man
belonging to the armed forces of the
United States interned on French soil
during the present war was Luis Rein-
hardt, seaman second class."

Reinhardt was lost overboard from
his ship at a French port and his body
recovered four days later. Local
French officials took part in the
funeral exercises. He was 19 years of
age.

WORKING OUT PLANS FOR NATIONAL ARMY

SUMMONING MEN FOR EXAMINA-
TION; STATES APPEAL BOARDS

Washington, D. C., July 25.—Prepa-
ration for actual mobilization of the
national army went ahead here today
while the local selection boards in
many parts of the country began sum-
moning for examination the men on
the draft lists.

There are numerous details to work
out before those summoned can be
transferred to the military establish-
ment and be sent to the cantonments.
The entire force, however, will be
ready with the exception probably of a
few disputed cases by the time the
sixteen cantonments are ready early
in September.

Provost Marshal General Crowder
under whose jurisdiction the selective
draft men will remain until they are
transferred to the books of the ad-
jutant general as soldiers, pointed out
today that the local boards actually are
selection not exemption boards. Their
primary purpose he said was to select
from registered men those qualified
for military service. The men they
turn away from examination will be
rejected rather than exempted because
of physical disability or for other
reasons.

Information reaching Washington
indicates that the selection boards are
taking the view of their work that
makes that name fitting for them.

When they certify any man to the
higher board as held for service the
man becomes a soldier and subject to
the soldier law. The quotas for the
various districts probably will be as-
sembled first at their district head-
quarters when the call comes. Whether
they will then be turned over, there to
an army officer or whether one of their
number will be placed in charge and
lead them to the cantonment is not
known as yet.

NAME MEN OF APPEAL BOARDS

Governor Says None of Them Was
Chosen for His Political leanings.

Albany, July 25.—The boards of ap-
peal for the state were announced to-
night by Governor Whitman. In mak-
ing public the list the governor
stated that in the 70 names submitted
to President Wilson not one was made
for political reasons.

After the governor had issued his
statement announcing the appointment
of members of the district exemption
appeal boards, he left for New York.
There was nothing in his statement to
tell what men were to act in any of
the districts nor could any men in the
governor's official family add anything
to it.

The federal draft law provides that
each exemption board of appeals shall
consist of at least five members.

Members of boards located in the
northern federal judicial district in-
cluded: John C. Crapper, Messena;
Robert W. Chambers, Broadbald; Jef-
ferson McDowell, Mechanicsville; Al-
bert H. Proctor, Malone; Dr. George
Grave, Herkimer; Carlton H. Lewis,
Schenectady; Stanton P. Hull, Peters-
burgh; Arthur C. Wyer, Delhi; Re-
deo Duga, Albany; Dr. George Stover,
Amsterdam.

In his statement Governor Whitman
said:
"The boards of appeal for this state
will consist of 70 citizens appointed by
the president."

"I have submitted the names of 70
persons. Not one single one of the
nominations has been made for polit-
ical reasons and until the question was
raised by the letter purporting to have
been made public by Mr. Tumulty I
have given no consideration whatever
to the politics of any of the men."

New York, July 25.—Members of the
draft exemption boards who held a
meeting here tonight to express indig-
nation by lack of co-operation upon
the part of state and federal authori-
ties were informed by Roscoe S.
Conkling that the term "slacker" is in-
adequate to call any member of the
committee who was to drop out at this
time.

JOHN A. RYAN ON RED CROSS.

Washington, D. C., July 25.—Presi-
dent Wilson today named John A.
Ryan, president of the Anaconda Cop-
per company, to succeed Edward N.
Hurley as a member of the Red Cross
executive board. Mr. Hurley resigned
to take the chairmanship of the ship-
ping board.

"NOT GUILTY" IS MOONEY VERDICT

Trial That Attracted Widespread
Attention Ended

JURY OUT 51 HOURS

Woman Kisses Each Juror When
They Render Decision; Visits
Husband; Summary

San Francisco, Cal., July 25.—Mrs.
Rena Mooney, one of five defendants
in the murder cases growing out of the
bomb explosion here last summer, was
acquitted late today after a trial that
had lasted nine and one-half weeks.
The jury deliberated 51 hours before
reaching its verdict. Several other in-
dictments are pending against her.

Thomas J. Mooney, her husband, and
Warren K. Billings have been con-
victed and sentenced to death and life
imprisonment respectively. Both
have appealed.

"The bomb cases are at an end," de-
clared Thomas O'Connor of Mrs.
Mooney's counsel. "The next trial will
be that of Oxman."

Frank C. Oxman, an Oregon cattle-
man, is accused of attempted subor-
nation of perjury in connection with
Thomas Mooney's trial, in which he
was one of the witnesses.

As the foreman announced the ver-
dict Mrs. Mooney, a comely young
music teacher, jumped from her seat
and kissed each juror.

Mrs. Israel Weinberg fainted when
the verdict was announced. Cheering
and handclapping by a number of
spectators was stopped by the bailiff
and the court room was cleared.

Mrs. Mooney made her way smiling
to the county jail where her husband
is confined. Entering his cell she
threw herself into his arms. The
other defendants and numerous relatives
crowded into the cell and a gather-
ing was held.

Demand by the prosecution for the
infliction of the death penalty, rarely
before asked in California in the case
of a woman; widespread interest of
labor unions, public controversy in-
volving credibility of states' witnesses
and charges by the defense that im-
portant evidence had been fabricated,
were features which marked the trial
of Mrs. Rena Mooney for murder re-
sulting from a bomb explosion here
last July.

Mrs. Mooney, a music teacher, wife
of Thomas J. Mooney, was arrested a
few days after the explosion, which,
occurring at 2:05 p. m. in the course
of a Preparedness day parade July 22,
killed ten persons and wounded more
than 40 men, women and children. At
about the same time the Mooneys
were arrested Warren K. Billings, a
rural veterinarian and Edward D. Nolan
were taken into custody by detectives.

The state contended that the explo-
sion was the culmination of a con-
spiracy plot of wide ramifications,
with the five bomb murder defendants
as the ringleaders.

Billings was tried, convicted of murder
and sentenced to life imprisonment.
Mooney was sentenced to death on the
first degree without recommendation
for mercy. Both sentences have been
held up pending appeals to the state
supreme court. The others are now
awaiting trial. Nolan is at liberty on
bail.

Dissatisfied with the verdict in the
case of Thomas J. Mooney, union la-
bor organizations, which contributed
largely to the defense fund through
the International Workers' Defense
league, caused the appointment of a
"silent jury" composed of labor men,
to hear evidence adduced at Mrs.
Mooney's trial and render an indepen-
dent verdict to organized labor.

Mrs. Mooney was brought to trial
May 21 before Superior Judge Emmet
Seawell, of Santa Rosa, and a jury.

The specific charge against her was
the murder of Mrs. Myrtle Irene Van-
Loo, one of the ten victims of the ex-
plosion. In addition the defendant
was charged with having been a mem-
ber of a "murderous conspiracy" to
overthrow the government and bring
about a state of anarchy. Much testi-
mony and many exhibits intended to
support this theory were ruled out by
Judge Seawell. Various letters writ-
ten to and by Mooney, extracts from an
anarchist publication called the
"Blast," edited here about the time of
the explosion by Alexander Berkman,
an associate of Emma Goldman, and
other documents, which the state con-
tended showed designs of the alleged
group of conspirators, were admitted.

DAFAYETTE FLEETS CLOSED.

Washington, D. C., July 25.—The
Lafayette flying corps is closed to all
candidates and the numerous appli-
cants for admission will be referred to
the aviation corps of the United States
army, it was announced today. Whether
the Lafayette corps will be trans-
ferred to the jurisdiction of the American
expeditionary force command has not
been decided.

BASEBALL RESULTS

NATIONAL LEAGUE

WAGNER'S MUFF LOSES GAME.

Playing an Assail He Drops Ball in Thirteenth and Two Out.

Pittsburgh, Pa., July 25 — With a man on second and two out in the thirteenth inning, Hans Wagner dropped an assail and the batsman was saved, the runner scoring from second on the miss play and winning the game for Brooklyn, 4 to 3. R H E Brooklyn 0001000020001—4 12 1 Pittsburgh 0002010000000—3 6 4

Batteries — Marquard, Coombs, Wmth and Myers, M. Wheat, Grimes, Jacobs and Schmidt.

No other games scheduled.

AMERICAN LEAGUE

ATHLETICS BEAT TIGERS.

Make Sport of Deliveries of Daus and Jones and Win Easily, 8 to 3.

Philadelphia, Pa., July 25 — Philadelphia hit the deliveries of Daus and Jones hard and easily won today's game from Detroit, 8 to 3. R H E Detroit 000001101—3 9 2 Philadelphia 00002213x—8 13 1

Batteries — Daus, Jones and Stange, Myers and Schang.

WHITE SOX TAKE TWO GAMES

Twice Beat Yanks; Bunch Hits in the First; Knock Fisher Out in Second.

New York, July 25 — Chicago defeated New York twice today, winning the first game 4 to 1 by bunching hits, and the second, 5 to 1, by knocking Fisher out of the box in the first inning.

First game— Chicago 0000000220—4 10 3 New York 000001000—1 6 4

Batteries — Cicotte and Schalk, McGride and Numamaker.

Second game— Chicago 000000010—5 12 1 New York 010000000—1 9 3

Batteries — Faber and Schalk, Fisher, Russell, Love and Walters.

BOSTON TAKES FIRST GAME.

St. Louis Browns Lose on Their Errors by a Score of 5 Runs to 4.

Boston, Mass., July 25 — Boston won the first game of the series with St. Louis 5 to 4 today. St. Louis' errors were costly. St. Louis 102100000—4 9 4 Boston 10003100x—5 9 1

Batteries — Davenport, Hamilton, Severid, Leonard and Thomas.

Both Cleveland and Washington games postponed, wet grounds.

ROCHESTER BEATS THE GIANTS.

Rochester, July 25 — The Rochester International team defeated the New York Nationals here today, 3 to 2.

STATE LEAGUE

At Binghamton— R H E Elmira 101031000—6 11 1 Binghamton 000000000—0 4 3

Batteries—Clark and Fisher; Barnhardt, Bills and Murphy.

At Wilkes-Barre—First game—Scranton 000224000—3 12 3 Wilkes-Barre 000000000—0 6 5

Batteries—Buckles and Crossin; Baratsky and Schneider.

Second game—Scranton 00000000—0 5 5 Wilkes-Barre 103000x—4 5 0

Seven innings by agreement.

Batteries — Higgins and Crossin; Verbout and Schneider.

Batteries — Davenport, Hamilton, Severid, Leonard and Thomas.

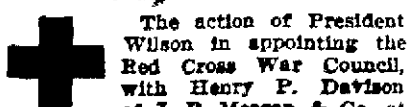

Both Cleveland and Washington games postponed, wet grounds.

ROCHESTER BEATS THE GIANTS.

Rochester, July 25 — The Rochester International team defeated the New York Nationals here today, 3 to 2.

THE WAR COUNCIL OF THE RED CROSS

Personnel of Strong Body Named by the President.

The action of President Wilson in appointing the Red Cross War Council, with Henry P. Davison of J. P. Morgan & Co. at its head, set in motion the tremendous campaign for popular subscriptions to a fund which the Red Cross will use for supplying hospitals at the front and also for carrying on relief work at home and in Europe on a scale perhaps greater than the world has ever seen.

Other members of the council appointed are Charles D. Norton, C. M. P. Murphy, Cornelius N. Bliss, Jr., and Edward N. Hurley, with William N.

PRESIDENT WILSON DEDICATING NEW RED CROSS BUILDING, WASHINGTON — MRS. WILSON AT THE RIGHT.

Taft, chairman, and Elliot Wadsworth, vice chairman of the executive committee, ex officio members.

In appointing the War Council the president earnestly exhorted the American public to support its work, assuring the following statement.

I have today created within the Red Cross a war council, to which will be intrusted the duty of responding to the extraordinary demands which the present war will make upon the services of the Red Cross both in the field and in civilian relief. The best way in which to impart the greatest efficiency and energy to the relief work which this war will entail will be to concentrate it in the hands of a single experienced organization which has been recognized by law and by international convention as the public instrumentality for such purposes. Indeed, such a concentration of administrative action in this matter seems to me absolutely necessary, and I hereby earnestly call upon all those who can contribute either great sums or small to the alleviation of the suffering and distress which must inevitably arise out of this fight for humanity and democracy to contribute to the Red Cross. It will be one of the first and most necessary tasks of the new war council of the Red Cross to raise great sums of money for the support of the work to be done and done upon a large scale. I hope that the response to their efforts will be a demonstration of the generosity of America and the power of genuine practical sympathy among our people that will command the admiration of the whole world.

WOODROW WILSON.

In an interview given the same day, Mr. Davison pledged the backing of Morgan & Co. to the undertaking and announced that he himself had temporarily given up all other business to devote his whole energy to the Red Cross financial campaign.

ECONOMY IN FOOD.

Getting the Best Results Out of a Forequarter of Lamb.

Are you aware of how much you can get from a forequarter of lamb? If it is cut correctly it should give a rack of lamb (French chops) and a shoulder, besides the neck and the breast, which may be boiled.

From these last parts one can make croquettes, a meat loaf, minced lamb on toast and salad, besides many other cooked meat dishes. The shoulder can be filled and roasted, boiled with caper sauce or pot roasted.

The rack, which is made up of dainty French chops, is the choicest part of the entire lamb, and if the butcher cuts the forequarter correctly there will be twelve delicious chops. These may be cut as needed or roasted in one piece.

To cut the forequarter correctly remove the shoulder and take out all the bone; cut off the neck and breast, then remove the chine and the chops. Don't throw away the bones and trimmings. Boil and strain them, then set aside to cool and remove the fat, which then can be used for deep fat frying.—Washington Star.

Trapping Turtles.

In the old days in the south the negro fishermen used to have an ingenious and simple way of trapping fresh water turtles. Any boy today can use the same method with the same effect. Turtles have favorite sunning logs. Beside one of the logs sink a water tight box two feet long and a foot and a half wide. The open top of the box should stand about an inch above the water. Nail the box securely against the log in such a position that it will catch the turtles that fall from the log. After the trap has been set leave the pond or lake for a time. On returning approach the log quietly from the side opposite the box. If there are any turtles on the log, frighten them suddenly. They will pitch off hurriedly into the box—Youth's Companion.

Witty Willis.

One evening a panhandler sidled up to William Collier as the player was walking around to the theater and addressed him thus:

"Sir, I began life poor and in hard luck. I—"

"Don't say anything more, my man." Interrupted Collier as he slipped the man a quarter. "It's worth money to learn how well you have held your own."

WEEKLY (Thursday), \$1 a year, 25 cents a quarter, 10 cents a month, 3 cents a copy.

Specimen copies sent free on application. The Weekly Republican will be sent free for three weeks to anyone who wishes to try it.

All subscriptions are payable in advance. Address

THE REPUBLICAN, Springfield, Mass.

FINANCIAL AND COMMERCIAL

New York Markets.

New York July 25. — The stock market was left largely to its own devices today, except at rare intervals, when traders saw fit to indulge in further selling or short covering, the latter movement prevailing at the end.

In banking circles the five billion dollar budget of the secretary of the treasury was the most engrossing topic of discussion. The Russian retreat and additional gold exports to Japan and Spain aggregating \$2,400,000, also entered into the calculations.

Little effort was required to bring about some of the forenoon reversals, which ran from 1 to 2 points in important stocks and about as much in some specialties. Steel repeated its familiar role of market leader, moving between 119 and 121 1/2, closing at 121, a net gain of 1/2 point.

Steamship shares were held in check because of uncertainty regarding the policy of the new ship building board and the warning as to future earnings conveyed in the annual report of the International Mercantile Marine company.

Rallies of the last hour, with gains of 1 to 3 points in minor specialties, including sugars and fertilizers, were accompanied by a more favorable weather report in leading agricultural centers and the awarding of several large contracts for government supplies.

Liberty 3 1/2's held at 99.45 to 99.49. U. S. bonds, old issues, were unchanged on call, but the coupon 4's rose 1/4 per cent and the registered 4's 1/2 per cent on sales.

New York Produce.

Butter — Steady, receipts, 19,595, creamery, higher than extras, 39 1/4 @ 40 1/4; extras 32 score, 39 1/2, first, 38 1/2 @ 39 1/4, seconds, 36 @ 38.

Eggs — Irregular, receipts, 14,306, fresh gathered extras, 38 @ 39, extra firsts, 36 @ 37 1/2, firsts, 33 @ 35; seconds, 30 @ 32 1/2, nearby hennery whites, fine to fancy, 44 @ 45; do browns, 40 @ 42.

Cheese — Steady; receipts, 6,029, state fresh specials, 21 1/2 @ 22; do average run, 21 1/2.

The Law Of Compensation

A gripping drama of modern life IN SEVEN PARTS

SYNOPSIS—"The Law of Compensation" tells a double story. A young wife chafes at the narrow confines of the home and is about to take a step which may lead to disaster. Her father suspects that there is something afoot and hurries to tell her the story of her mother's life. The incidents are strangely parallel to those of the daughter's own life, and she sees herself going through the distressing mishaps of her mother. She considers the mistake she is making and the way she overcomes her blunder, before it is too late, is handled as to one but such a talented actress as Miss Talmadge could. Her support is of the best obtainable and the lesson it teaches will long be remembered.

WINNING THE WAR.
 "Stop using gasoline and win the war," is the fervent perpetual cry of one class of war winners. "Stop eating wheat and win the war," is the appeal of a second. "Eat no meat and little grease" and win the war, says a third. A fourth appeal is to devote more time to gardens, a fifth to stop buying luxuries and to curtail the necessities, a sixth to go long on luxuries and short on necessities, a seventh to keep along just as of yore with both luxuries and necessities. These are only a few ways whereby we can win the war if the assertions of sundry specialists in war-winning are to be accepted.

In fact, it is time for people to get for themselves a clear idea of things and to realize that by no single act can the war be won. It is a wise thing to economize within reason in gasoline and food and fuel, and in clothes and other things which go to make up the sum of modern living. It is not a good thing to go beyond reason in any of them. It is a good thing to have a garden and to get all that is possible out of it by intelligent cultivation—perhaps in view of conditions everywhere it is the one best thing for everybody. It is a good thing to exercise reasonable economy in the ordinary conduct of affairs; it is a good thing not to be too headstrong even in this, but to remember that an economy which would for lack of demand shut down shops and factories would bring about a chaotic and deplorable condition.

What the country needs is a balance wheel which will keep things going steadily. It does not need to go off on tangents. It does not need to put automobiles out of commission—perhaps autos, as they were in Paris, may in an emergency save the country—but it does need to use them with judgment. It does not need in the household to use ten cents' worth of eggs and five of raisins, with a quart of milk, to save two tablespoonsful of bread crumbs. It does not need to spend a dollar a plate or half of that on a dinner advertised as wheatless and meatless. It does not need to go without comfortable clothing or the ordinary comforts of life. But it does need to keep a level head and to do everything possible for the good of humanity. No one thing will save the world and the man who thinks his duty done when he has performed a single duty will fall far short of his proper performance. He should keep doing all the time, and at the same time should remember not to be a mere extremist. Evidently the worst thing which the President has to contend with in congress now is these extremists, who see nothing outside of their own obsession and see this all too plainly.

COMMENTS OF THE PRESS
Prospects of the Irish Convention.
 It is impossible to look forward with much hope to the outcome of the deliberations which begin in Dublin today. A fundamental condition of success was, as Lloyd George admitted and as every one recognized, that Irishmen of all creeds and parties should be adequately represented. In no other way was it to be expected that a large assembly could "finally compose the unhappy discords which have so long distracted Ireland and impeded its harmonious development." Otherwise, indeed, the prospect of success would be more promising had it been possible for a very few leading Irishmen to gather together and endeavor to work out a solution in private. As it is, the convention seems to be neither widely nor representatively.—(New York Tribune.)

The Cost of the Dog.
 It is estimated by "The Manufacturers' Record" that there are 35,000,000 dogs in the United States. As a source of revenue they would produce \$50,000,000 if taxed at the rate of \$2 a head, provided the owners of a lot of worthless curs did not kill them rather than pay the tax. The same writer estimates that the average dog consumes food worth 70 cents every week. Authority for this figure is not given, but the argument that much of the food a dog eats would not be consumed by humans in any event can be anticipated with the statement that if it were fed to other animals, such as pigs and poultry, it would be converted into food supply for the people. Seventy cents a week for each of 25,000,000 dogs means \$350,000,000 a year, which would feed a good many children in Belgium and Poland and Armenia. Perhaps the figure is too high; in any event the amount is very large.—(Portland Oregonian.)

German Deceit for Peace.
 It is not very profitable to look for a cryptic pacifistic meaning in the truculent words of a Prussian statesman, and Senator Lewis strains interpretation with undue violence when he finds in the speech of Chancellor Michaelis a desire to have the United States make the proposal of peace which pride will not permit Germany to repeat. But even if that meaning could be read into the chancellor's words, it would be neither novel or important, even while the United

States was a neutral Germany was doing its level best by intrigue and pressure of all kinds to get this country to move for peace—the kind of peace Germany desired.—(Springfield Republican.)

Our Men Abroad.
 Rescinding by Secretary of War Baker of some irksome and unnecessary censorship rules touching cables is welcomed as a sign of returning sanity.

Be the news good or ill concerning our troops abroad, the country must have it, and quickly. It is even a question whether the suppression of all mention of ships leaving for the seat of war is necessary. It is an absolute fact that such movements are known to the enemy. The parade of regiments ready for service, it is felt, should be permitted, although there may be wisdom in concealing exact date and hour of departure to prevent heartrending and nerve racking farewells.

Time may come when everything will be done openly, when, admitting we are at war, we shall run up the flag, nail it there and take to the seas in open day, bidding defiance to all.—(New York Telegram.)

Abolishing the Deans.
 The bishop of London says deans should be abolished. The Church of England spends \$350,000 yearly on deans, and the bishop says it is wasted money. The bishop makes his statement at the psychological moment, for lawsuits of all sorts are being dropped in England and if deans are a luxury they will go.—(Utica Press.)

POTATO BLIGHT THREATENS.
 Weather Conditions Favorable To Its Spread.

The potato crop of Otsego and Delaware counties, which heretofore has been most promising of any, now seems to be seriously threatened with blight. The attacks of late blight are worse in damp, foggy weather, when it spreads with lightning like rapidly from hill to hill, and field to field. If present weather conditions continue indications are that heavy damage will be done to that particular crop.

A 4-5-50 Bordeaux mixture made up of four pounds of copper sulphate, (blue vitriol) and five pounds of lime to 50 gallons of water is of sufficient strength to control the blight. Stone lime or hydrated lime should be used. Air slaked lime, stone or ground lime stone should never be used. Bordeaux mixture is a preventive not a cure. It is useless to spray after the vines have become infected with the fungus. It is necessary to keep the leaves covered with Bordeaux to prevent infection. They should be sprayed at least every ten days, and preferably every week during the wet weather. When potato bugs are troublesome add Paris green one pound to 50 gallons of Bordeaux or arsenate of lead. The stock solution of lime is made by slacking a bushel of good stone lime or lump lime in a barrel, using at first only enough water to cause the lumps to crumble into fine pieces. Later more water is added to make a paste, and finally enough water to make 50 gallons. This constitutes a stock solution of one pound of lime to each gallon of water. Hydrated lime may be used instead of stone lime. A stock solution of copper sulphate should be made in a barrel from 50 pounds of copper sulphate dissolved in 50 gallons of water. If the sulphate is placed in a gummy sack, and suspended so as to be just beneath the surface of the water it will dissolve in a few hours.

If a spray mixture of 4-5-50 is desired fill the sprayer three-fourths full of water, add four gallons of the copper sulphate stock solution, five gallons of the stock mixture of lime, then add sufficient water to bring the total up to 50 gallons. The lime mixture should always be strained through a fine strainer to prevent lumps from getting in that might clog up spray nozzles.

With patches of less than one acre, it is usually more convenient to buy a prepared Bordeaux paste or powder.

BUSINESS MEN'S CONVENTION.
 Tri-County Association To Meet at Oneonta August 16.

The Tri-County Business Men's convention, comprising the counties of Otsego, Delaware and Chenango, will be held in Oneonta Thursday, August 16.

The tentative plans outlined include luncheon at noon. Following the luncheon, a brief business session will be held in some good sized building. The committee consisting of L. W. Etniore, chairman; Hon. L. P. Butts, W. F. Eggleston, B. C. Lauren and O. R. Rowe is planning to make the occasion memorable. Two prominent speakers have been secured, Roy F. Soule, editor of the "Hardware Age" of New York city, will give an address on "Practical Salesmanship." Mr. Soule is a speaker of rare ability and knows his subject thoroughly. Frequently he is invited to address large conventions and is in thorough touch with everything that makes a good salesman.

Admiral Capps and Edward Hurley Succeed Goethals and Denman

Edward N. Hurley of Chicago, who has been named by President Wilson to succeed Chairman Denman, of the United States shipping board, and Rear Admiral Washington E. Capps, chief naval constructor, U. S. N., who has been appointed to the place vacated by Major-General Goethals as general manager of the Emergency Fleet corporation, thus ending the famous ship controversy. The disputes between Chairman Denman and General Goethals as to the respective merits of wooden and steel ships has tied up the construction of practically all vessels of any sort.

LOCAL POST OFFICE REPORT

Total Increase Over Last Fiscal Year \$1,071.36 — Money Order Business Growing — Total Receipts for 1916-1917 \$14,551.00.

The report for the fiscal year ending June 30, 1917, of the Oneonta post office has just been completed by Postmaster Charles J. Beams. There is no other agency which shows the prosperity of a community better than the business transacted by its post office. The expansion and contraction of business are accurately reflected in the postal receipts and in the increase and decrease in the volume of mail that passes through the post office.

Since, it is a pleasure to notice that Oneonta's post office has made a big increase in its business in the fiscal year 1916-1917 over the previous year. The total increase in receipts was \$1,071.36, while the money order receipts were fully 40 per cent greater than the previous year.

Following is the record of the total receipts for the two years by quarters:

1915-1916.	
Quarter ending—	
Sept. 30, 1915	\$10,171.04
Dec. 31, 1915	11,869.87
March 31, 1916	10,793.93
June 30	10,646.00
Total	\$43,479.84
1916-1917.	
Quarter ending—	
Sept. 30, 1916	\$10,530.62
Dec. 31	12,193.34
March 31, 1917	10,969.44
June 30	10,857.70
Total	\$44,551.00

Increase over 1915-1916 receipts, \$1,071.36.

The record of the number of letters registered and the number of parcels insured and sent C. O. D. is shown by the following figures:

	1915-16	1916-17
Pieces registered	4,718	5,002
Parcels insured	5,817	8,654
C. O. D. parcels sent	410	501

GET 17 RECRUITS FOR BAKERS

Two Days Work Adds That Many to Thirty Men Needed—Captain Millard Will Be in Oneonta Sunday to Finish Details and Arrange to Take Men to Camp With Him.

In two days of intensive recruiting the New York Bakery company, N. G. N. Y., of which Captain Jesse A. Millard of this city is in command, has secured seventeen of the thirty men necessary to bring the command to war strength. Four of them were enlisted Tuesday and thirteen yesterday.

This recruiting has been under the direction of Sergeant L. N. Greff and Private C. F. Warner, who departed last night for the company's camp at Peekskill. Before they left they received a telegram from Captain Millard, informing them that he will arrive in Oneonta Sunday morning to attend to some further details of the recruiting and to arrange to take the seventeen men back with him when he returns to the camp.

MILK AND CREAM RATE CHANGED
 Interstate Commerce Commission Re-adjusts the Shipping Rates.
 A dispatch from Washington, D. C., says:

Readjustment of rates on milk and cream from points in New York, New Jersey and Pennsylvania to Philadelphia and New York was ordered today by the Interstate Commerce commission. The commission found that the present system of basing freight rates on zones operated to the disadvantage of shippers from near-by points and was unduly preferential to distant shippers.

The zone system, under which rates of from 23 to 32 cents per 40-quart can were charged for milk shipment from one to 450 miles was ordered discontinued October 1 and a new schedule providing rate of 15 1/2 cents to 48 1/2 cents for shipments from one to 630 miles was ordered put into effect.

Rates on cream will be 25 per cent more than on milk. Under the old system they were from 60 to 90 per cent more.

Birthday Party Held.
 A birthday party in honor of Miss Isabella Mahaffy was held Tuesday evening at her home, 53 Maple street. Dancing, games and music were enjoyed by the party, which consisted of 15 girl friends, until a late hour, when ice cream and cake were served. The evening was one of unalloyed pleasure to those present.

For the July vacationist hundreds of fresh new Waists in cool, dainty summer styles—and so moderately priced that one may lay in a supply, with no very great strain on her purse.

At 98c and \$1.00—White Waists tailored and trimmed models; waists in color, white with a touch of color and in sports-stripe effect.

\$2.00 and \$2.25—Waists of voile, batiste and lawn in semi-tailored styles.

At \$2.50 and \$3.00—Waists of white voile and batiste, elaborately trimmed with lace.

Fashionable Millinery

If the hat bought earlier in the season is beginning to show signs of wear, or if one is needed to be worn with light summer dresses, it may be purchased here for very little. Our summer lines include hats for all occasions, for dress, traveling and sports wear.

WHITE SPORT HATS \$1.98 and \$2.50.
 For motoring or golf, finished with a fancy band of ribbon.

PENCIL BRIMMED PANAMAS \$1.98 to \$3.50.
 The height of fashion at every shore and mountain resort, trimmed with bands of fancy and grosgrain ribbon.

TRIMMED WHITE HATS FROM \$3.50 TO \$5.00.
 Summer hats trimmed with flowers and fancy feathers, many of them with crepe facings.

Tub Skirts for Summer
 These skirts are made from the latest materials, such as cotton gabardine, libene, rep, cordelene and piques and show the most amazing pockets, some of them hanging quite loose from the skirt and attached only by straps and buttons.

Prices \$1.39, \$1.75, \$2.00, \$2.50, \$2.75, \$2.98, \$3.50, \$4.50, \$5.00 and \$5.99.

Bathing Suits, Caps and Shoes

All are brand new and up-to-the-minute styles, trimmed with contrasting colors to match the fabrics.

Prices \$1.00, \$1.50, \$2.00, \$2.25, \$2.95, \$3.50, \$5.00 to \$7.50. Caps at 25c, 35c, 50c and 75c. Shoes at 25c, 29c and 50c.

SERVE BY SAVING

Whether or not we are called to man-
be trenches, to enter the hospital
service, to make munitions, to pro-
duce food or to perform some other
kind of war service, there will still
be a duty lying near the hand of
every one of us.

We can do a part of our bit by cutting
out all waste and saving a part of our in-
come to loan our Government.

Have to purchase U. S. Government bonds
Liberty Bonds or deposit your savings
in a bank so the bank can buy the bonds.

If you have never saved before, now is
the time to begin.

One Dollar will start an account in our
Thrift Department.

If you have always been thrifty, now is
the time to increase your thrift.

LOCAL MENTION.

Ladies of Oneonta and vicinity
are asked to remember the needs of
the hospital now that the canning
season has arrived and do up an extra
can or two to be donated to this worthy
institution.

Oil with no sand or gravel is being
placed on the macadam road north
from Colliers, and above Cooperstown
Junction. It is quite troublesome to
motorists. The task should be com-
pleted in a few days.

Gypsies traveling in three touring
cars passed through Oneonta north-
ward late yesterday and at 8:30 o'clock
halted near the ravine just south of
Colliers, where other parties have
camped in former years. Whether they
remained there for the night could
not be learned.

The committee in charge of sup-
per at the Country club this evening
for officers and men of Company G
would like to announce that Mr. Bas-
sett will not be able to serve any other
dinner to members of the club. It
is hoped that all ladies and gentlemen
that belong to the club will be present
promptly at 4:30 to greet the men on
their arrival.

Ice cream and cake out of doors
on such a night as that of yesterday
struck the popular fancy, and there
was liberal patronage at the social held
by the Royal Rebekahs on the lawn
at the corner of Main street and Ford
avenue. Delicious strawberry and
vanilla cream were served with sponge
and chocolate cake, and a substantial
sum was realized. Music was furnish-
ed by a Viola, for the use of which
the Rebekahs were indebted to the
courtesy of Arthur M. Butts.

Motorists who joined the war
emergency service and all others who
will assist in bringing the members
back to the city from the Country
club this evening, after the dinner to
be served there, are requested to meet
at the Municipal building at 7:15
o'clock. The emergency call to be
sounded on the fire alarm system is
5-3-2 repeated three times. The call
as previously stated 5-2-3 is the alarm
for the High school building. It is
hoped that there will be a generous
response as there are some 160 men to
bring to the city and 40 cars will be
required.

Locomotive Shops' Half Holiday.

In compliance with the patriotic
rule which is now being adopted by
many firms and corporations, the De-
laure and Hudson company has grant-
ed a half holiday to its employees in
the locomotive shops. The new sched-
ule was put into effect last Saturday
and will continue throughout the sum-
mer, it is expected. The change was
made in response to a general request
by the workmen in this department.
The locomotive shops now close at
noon Saturday, thus giving the men
more time for work in their gardens.

Meetings Today.

Regular meeting of Autumn lodge
this evening at 7:30 o'clock.
Regular meeting of the G. I. A. at
2:30 o'clock this afternoon.
The Lafatol club will meet at Ne-
ah-wa park this afternoon. Those
who did not furnish refreshments this
time please furnish next meeting. The
president expects to be out of town
today.

There will be a meeting of the ex-
ecutive committee of the West End
Baptist church this evening immedi-
ately after prayer meeting.

Photo of Lieut. Gurney's Regiment.

A large photograph of a review of
the Sixth Cavalry regiment of the regu-
lar army, the largest review of a
cavalry regiment since 1865, is on dis-
play in one of the windows of M. Gur-
ney & Sons store on Main street. L. C.
Gurney's son, Augustus, is a second
lieutenant in this regiment.

Examination for Chauffeurs.

Notice is given by Secretary of State
Hugo that there will be an examina-
tion at the Oneonta hotel in this city
on Thursday, August 2, for all candi-
dates for chauffeurs who have filed
applications with the Albany automo-
bile bureau.

Universalist Picnic Postponed.

The Sunday school picnic of the
Universalist church is postponed until
Friday at Ne-ah-wa park. Supper at
6 o'clock. Bring cup, fork and spoon.

Notice.

Beginning Thursday morning at 10
o'clock will sell all this season's un-
trimmed hats, 100 to select from at 25c
each; also 50 trimmed hats at 38c
each. Mrs. C. F. Baker, over Col-
burn's Clothing store. advt 2t

COMPANY G AT WAR STRENGTH

LAST MAN OF NEED 150 EN-
LISTED YESTERDAY; COMPANY
LARGEST IN HISTORY

Guardsmen inoculated for typhoid;
Two More Treatments Will Be
Given Ten Days Apart; Thoughtful
Gifts by Mr. and Mrs. Bowditch;
Packing Equipment While Waiting
Orders to Move.

For the first time in its history,
Company G, of the First regiment, N.
Y. N. G., Oneonta's company, has
reached a strength of 150. This is war
strength and the man who enlisted
yesterday to make the record was
James E. Strum of Oneonta, who
came here from the town of Maryland.
The one hundred and fifty men all en-
listed voluntarily.

Yesterday morning, under the com-
mand of Lieutenants Johnson and
Royce, the company was taken for a
practice march across the river, down
the South Side road to the lower
bridge, over the viaduct and thence
back to the armory by way of Chest-
nut street. On the march there was
one rest of about 25 minutes. The
balance of the morning was devoted to
instruction in the manual of arms.

Every one of the 150 members re-
ceived his first inoculation on the left
arm yesterday afternoon of typhoid
prophylactic, administered by Major
George W. Augustin, regimental sur-
geon. The Major returned for this
purpose from Middletown, where he
had been called on duties incident to
mustering in the Sanitary detachment
of the First regiment. The inocula-
tion took on all the men and no one
suffered any ill effects. The men were
then excused from duty for the rest
of the afternoon except guard, kitchen
and other details.

Two more treatments at intervals of
10 days each will be given to com-
plete the operation. The men also
will be vaccinated and inoculated for
paratyphoid.

Mr. and Mrs. John L. Bowditch have
given the company twenty-four copies,
pocket edition, of "The Soldier's En-
glish and French Conversation Book,
for the Man Going to the Front." The
gift was accepted by Captain
George S. Keppers on behalf of the
boys, who heartily appreciate the
thoughtfulness of the giver.

No orders have yet been received
for the departure of the company for
camp. In the meantime recruits are
being received for the First regiment,
and unseasonable clothing, such as
overcoats, as well as other equipment,
are being packed and gotten ready to
ship on short notice.

BOTH BODIES RECOVERED.

That of Clarence Chase of Gilbertsville
Found Yesterday Morning.

Coroner Getman of this city was
called to Gilbertsville yesterday in the
case of Harry and Clarence Chase, who
were drowned in the Butternuts creek
Tuesday afternoon, and after viewing
the bodies issued the necessary certi-
ficate and order. The body of Harry
Chase, the older boy, was found late
that evening by Charles Morris, and
was fully clothed save for his shoes,
that of Clarence Chase the younger
lad, was found by Clarence Thompson
near the shore at about 9 o'clock
Wednesday morning, only a short dis-
tance below the place where they
entered the water.

The fact that the latter boy was en-
tirely disrobed tells quite plainly the
story of the accident. He had evidently
entered the water first, and doubt-
less was seized with a cramp. The
older brother, seeing his danger, had
thrown off his shoes and swam to his
relief, and in the struggle to save him
both were drowned. The case is a
very sad one, and the parents have the
sympathy of all in their loss.

ONEONTA GOLF TEAM DEFEATED

Oneida Community Players Drag Home
Honors in Contest Held Yesterday.

Nineteen Oneida Community golfers
motored to Oneonta yesterday for a
match game with members of the
Oneonta Country club and lugged off
the honors. The Community players
made 21 points, Oneonta 13. The scor-
ing was done by the Nassau system by
which a player can make 1, 2 or a
maximum 3 points for his side. Like-
wise, and furthermore, he can lose 1,
2 or 3 points for his team. The One-
onta players who won were Lawson
2 points, McKean 3, Ward 1, Lane 1,
Sheldahl 3, Chase 3. Two men, H.
Ford and Buckley, played a tie game
with their opponents.

Births.

Born, July 24, to Mr. and Mrs.
George Hughes of South Side, a 9½
pound daughter.

Born, July 24, to Mr. and Mrs.
Mateo Palema, an eight pound daugh-
ter.

The Chautauqua Was Grand.

Every man and woman in Oneonta
should have heard the lectures at the
Chautauqua, as they were helpful in
making people better and this a bet-
ter country to live in. Professor
Marshman's talks on Ideals were in-
spiring and made one think of the
ideals of twelve men in Oneonta who
are big enough to look beyond self,
in helping ordinary plain people to
get homes and farms of their own and
pay off mortgages on same, so that a
portion of the interest money they pay
goes back to them, and also to combine small amounts and
thus double earning capacity, to the
amount of hundreds of thousands of
dollars, for homes, sickness, loss of a
job or old-age, through the safe and
helpful Oneonta Building and Loan
association. The Chautauqua, like the
association, teaches men and women
to be big enough to look beyond self.

NO CALL FOR EXAMINATIONS.

Local Exemption Board Has Not Re-
ceived Copy of Master Lists.

Failure of a copy of the master list
of the draft to reach the local exemp-
tion board has resulted in no steps be-
ing taken to call men first drawn be-
fore the board for examination. It is
expected that he list will arrive today
and that the work will at once be un-
dertaken.

Relative to the disposition of the
men after they have been accepted, a
dispatch from Washington last even-
ing says:

Meanwhile details of the machinery
for actually calling the accepted men
into service and sending them to their
mobilization camps are being worked
out. Provost Marshal General Crow-
der has already ruled that the claim
of the army attaches to any regis-
tered man as soon as the local selec-
tion board has posted him as accepted.
From that time on, unless exempted,
he will be subject to military law and
the articles of war. Failure to appear
when called will bring the military
forces of the provost marshal general
in search of the missing man and he
will be tried for any violation of regu-
lations before a court martial.

It appears probable that the ac-
cepted men when the mobilization or-
der for the new army is given, will
first be assembled in their selection
board headquarters. Their distribu-
tion among the sixteen cantonments,
General Crowder said today, would be
governed by two rules. First, the sec-
tion of the law requiring that they be
assigned, as far as practicable, to duty
with troops from their own state, and
secondly, the location of the nearest
cantonment to reduce the transporta-
tion problem as much as possible.

No information has reached General
Crowder indicating that there will be
any need to summon a second draft in
addition to the 687,000 men now called
for, during the present year. General
Crowder said today he had understood
that the draft machinery would not
need to be employed again during the
year. Such it will be kept
in tact.

RECEIVES CHECK FOR \$156.50.

Hobart Citizens Contribute Large Sum
To Company G Fund.

Chairman Frank A. Herlieth of the
committee from the Chamber of Com-
merce to solicit funds for the comfort
fund for Company G and Captain Mil-
lard's field bakery, was particularly de-
lighted yesterday morning. His mail
brought a check from W. H. Sheffield
of Hobart for \$156.50 and the names
of the donors from that section. It
is an interesting list and shows con-
clusively that the people of Hobart
are mindful of the sacrifices the boys
from that section and this city are
making to defend America and her
people.

The committee having charge of the
soliciting is meeting with good success
and hope to complete the task by the
end of the week. It is indeed gratify-
ing to the committee and to those in-
terested to note the interest shown
in this city and in every community
that has furnished recruits for these
commands.

ARTICLES MADE BY THE BLIND.

Will Be Sold Saturday for Benefit of
Blind People of New York State.

On Saturday of this week there will
be a sale, conducted under the aus-
pices of the Woman's club of Oneonta,
of many articles of utility and artistic
value, made by blind people of this
state and sold for their benefit under
state auspices. The sale will be on
the lawn at 261 Main street, in front
of the store of Packer & Sherman,
corner of Main street and Ford ave-
nue, in case the weather is favorable.
If not the sale will be in the store of
Sniffin & VanCleft directly across the
street.

The articles are all made by the
blind and all the proceeds of the sale
go directly to them save the cost of
the material, which is bought whole-
sale. It is urged that the ladies of
the city give liberal patronage to this
most worthy work.

THE STRAND TODAY.

Norma Talmadge in a Seven Part Sel-
nick Feature, Law of Compensation.

In offering to the public this great
feature from the book by Wilson Miz-
ner, we believe we are giving you the
chance of seeing the most gripping
drama of American life ever shown in
any theatre in this city. It tells how
a woman was saved as she stood on
the brink of an abyss. It is a worthy
successor to this same star's great suc-
cess, "Panthea," which we showed in
this theatre a few weeks ago and
which was claimed by many of the
local fans to be the greatest picture
they ever saw. This is claimed by
critics to be even better and with the
wonderful cast supporting her it is
bound to please all. The names of
Norma Talmadge and Selznick are a
guarantee of a highest class produc-
tion. The admission to this big fea-
ture is: Matinee, 10 cents; evening, 15
cents.

"THE VALLEY OF DECISION."

Powerful Drama With Richard Ben-
nett at Happy Hour Theatre Today.

Richard Bennett, the famous Mutual
star, appears today in one of his best
pieces, "The Valley of Decision," a
powerful morality drama in five won-
derful acts. Universal Current Events,
No. 6, showing latest current topics.
Nestor comedy, "The War Bride-
groom," with the famous two—Lee
Moran and Eddie Lyons.

Diamond rings for men

A fine diamond ring is
more than an intrinsic
asset to a man, there is
an intangible value to
it, on the order of
"good will" in busi-
ness.

For like every other
form of wealth, a dia-
mond commands re-
spect and makes for
business and social pres-
tige.

This is particularly true
of Brigham diamonds
because of their fine
quality and color. They
have the expert's "O.
K." on them.

Mr. and Mrs. T. Kiothe and two daughters of 5 Harvey street left Wednesday to attend the funeral of a relative in Wilkes-Barre. They will be absent about a week.

Mrs. Arthur E. Ford has returned to her home, after a stay at the Otesaga at Cooperstown. Miss Lillian Davis of Richfield Springs accompanied her home and will visit at the Ford residence for a time.

Mrs. Minnie Sheldon, who underwent an operation at the Fox Memorial hospital a few days since, is recovering nicely at the Wana sanitarium on Lawn avenue. Her many friends will learn with satisfaction of her improvement.

Mr. and Mrs. A. Shear, Mrs. Slater, Mrs. Hagalorn, Mrs. Anutney, Hartwell Hagalorn, Franklin Doolittle of Johnson City, Mrs. G. Baly of Binghamton motored to Goodyear lake and spent Wednesday with Dr. and Mrs. Elliott.

Mrs. Emma E. Lee, Mrs. S. M. Baird and Master Everett Lee, all of Binghamton, who had been visiting at the home of H. W. Lee, went yesterday to Cohoeskill, where they will spend a few days with the former's daughter, Mrs. John H. Frederick.

Mr. and Mrs. A. L. Dalnase, Mr. and Mrs. Ira Stillman and Benjamin Jane have just returned from a ten days' auto trip through the Berkshire Hills, and over the Mohawk trail and the cities of Boston, Mass., Providence, R. I. and Hartford, Conn.

Mr. and Mrs. Grant Bates left Oneonta yesterday morning on a ten days' vacation. In the course of which they will sojourn for several days at Atlantic City. Later they go to Vineland, N. J., where they will visit a nephew, Arthur Thompson, formerly of this city.

Mrs. L. C. Millard and party, who motored to Peekskill to call upon Captain Jesse A. Millard and company, arrived home yesterday and report the members of the company well and enjoying the routine of the work there. Captain Millard is expected to spend the week-end this week at his home here.

Mrs. Adon H. Brownell, who had been a guest for some time at Dr. and Mrs. A. H. Brownell of this city, departed Wednesday for her home in Pittsburgh, Pa. She was accompanied by her sister-in-law, Miss Elizabeth Brownell, who will be her guest for a few weeks.

Mrs. P. R. Barnes, who had been in Washington, D. C., visiting her son who is a volunteer in the engineers' corps soon to leave for France, returned home yesterday. Mrs. D. O. Webb, who accompanied her to Washington, stopped to visit friends on the way home and will return a day or two later.

Mr. and Mrs. W. A. Krutler of Mr. Vernon and Mrs. Warren Weeks of Amherst arrived in Oneonta last evening and are guests of Mr. and Mrs. A. J. Bookhout. Today they go to Wells Bridge, where they will spend their summer outing on the Bookhout farm.

In about a week they will be joined by Mr. and Mrs. A. B. Wiley, who are now touring the state by auto. Mr. Wiley is a resident of Amherst and is Chinese inspector in New York for the state department of the federal government.

Thomas W. Russell of Utica arrived in Oneonta yesterday morning for a brief visit at the home of his sister, Mrs. J. O. Rowe. Yesterday was the eighty-fifth birthday of their mother, Mrs. Charles Russell, and the visit was for the purpose of meeting with the family on this auspicious day. Though of such advanced age, Mrs. Russell is still in the best of health and spirits and enjoyed the day as much as any who were younger. All will join with the family in wishing Mrs. Russell many years more of health and happiness.

FOUR HAVE NARROW ESCAPE

When Motor Car Owned and Driven by Arthur L. Bundy Mounts Embankment and Overturns.

Last evening, while driving from Schenectady to this city, Arthur L. Bundy of Schenectady lost control of his Ford touring car, according to his statement the steering gear going wrong, and the car left the macadam about half way up the grade south from the Morgan homestead. The car pushed its way over and through the piles of stones at the side for repair work and then the right hand wheels mounted the bank and after going a rod or more overturned on its side.

The speed of the car had become checked to such an extent that the car fell over easily and none of the four occupants were seriously injured.

Mrs. Bundy stated that the other occupants of the car were Mr. and Mrs. Howard Olmstead of Colliers and Mrs. Arthur Evans of Colliers. Mr. Bundy and Mr. Olmstead were both bruised and suffered some contusions of the skin. Mrs. Evans was brought to the Fox Memorial hospital here by another motorist.

At the hospital it was found that her nose was cut and bruised with a slight scalp wound and a possibility that one rib was broken. She remained at the hospital last night.

There appears some discrepancy relative to the identity of the fourth occupant. Mrs. Olmstead could not be located. One informant reports that the fourth occupant was Mrs. Evans' daughter, but the daughter could not be found. It was said that she was not injured and returned to her home as quickly as possible after the accident.

Mr. Bundy's statement was to the effect that he brought Mr. Olmstead, who has been at work for Porter Bros at Schenectady, to Oneonta on some matters of business during the forenoon, and later on returning to Schenectady took with them Mrs. Olmstead and Mrs. Evans. They were returning last evening and when the Evans home was reached it was suggested that the trip be continued to Oneonta to witness a picture show, which suggestion was adopted.

At about 8.30 o'clock, when at the point named, while they were making a good road gait, the steering gear broke with the above result. Mr. Bundy insists that he was not driving to exceed 30 miles an hour when the accident occurred and the indications at the scene were that his speed was easily that.

The car was not seriously damaged, the wind shield and top of course being ruined. At a late hour Arthur M. Butts brought the car to his garage for repairs.

Dr. Augustin Home from Middletown.

Major George W. Augustin, chief of the sanitary detachment of the First New York regiment, arrived home yesterday from Middletown, where the detachment is stationed. Yesterday, as is elsewhere noted, he administered the typhoid prophylactic to the members of Company G and it is understood goes from Oneonta to Walton for the same purpose. While Dr. Augustin is not able definitely to announce when he will probably remain for a few days in Oneonta and at his home in Laure.

Dr. L. B. Mendel Married.

Announcements of the marriage of Dr. Lafayette Benedict Mendel, formerly of Delhi, now of the Yale university, and Miss Alice, daughter of Mrs. Isaac Friend of Milwaukee, Wis., on July 19, have been received by Oneonta friends. Mr. and Mrs. Aaron Stein have issued invitations for a reception at their residence in Delhi on Tuesday evening, July 31, in honor of Dr. and Mrs. Mendel.

Native of Morris Dead.

Mrs. George Miller of New Hartford died at her home in that village on Tuesday, in advanced years. Her maiden name was Marie Bowne and she was the daughter of Joseph and Nancy Bowne. She leaves a husband and several children. She had been a resident of New Hartford for over 60 years.

Pocket Billiard Exhibition.

Beginning at 8 p. m. Friday at Brown's pocket billiard parlor there will be a 100 point exhibition game between an Oneonta man and a player from outside the city. Friday will be benefit day of Company G and all money taken in will be contributed to the Company G fund.

MARRIAGES.

Howe-Bolan.

A military wedding, which was held in Norwich on Monday with Private Julian Howe, a member of Company G, Twenty-second regiment, N. Y. N. G., and Miss Evelyn Bolan, a Bell telephone operator as the principals has just been announced.

The wedding occurred at 9 o'clock in the rectory of St. Paul's church, Norwich, with Rev. Father Tiernan officiating. The bridemaid was Miss Rose O'Gilby, while Private P. E. White of Company L, Seventy-first regiment acted as best man. The witnesses were Miss Mary Cahill and Private John Dunn.

Osterhout-Elmer.

Ira E. Osterhout and Mrs. Anna M. Elmer were married Friday, July 20, at the home of Mrs. Elmer's daughter, Mrs. C. C. Gibson of East Orange, N. J., by Rev. J. G. Johnson, pastor of the First Baptist church of that city.

DEATHS.

J. Augustus Goewey.

Schenectady, July 25. — J. Augustus Goewey died at 3 o'clock this afternoon in his rooms in Hotel Siver, aged 74 years. He had been ill about four weeks. Mr. Goewey was well known in this and Schoharie counties. He was born near Milford and was for several years engaged in business in Albany, but for the past 17 years he has made his home in this village.

The funeral services will be held in the parlors of the Siver hotel Thursday afternoon at 3 o'clock. Burial in Hartwick cemetery.

Mrs. Allie Peet.

Mrs. Allie Peet died at her home in Laurens Wednesday, July 25, at 4:40 p. m. Funeral Friday at 1 o'clock at the home. Further notice will be given in a later issue.

Surgical Dressing Class Meets.

The surgical dressing class met in the Woman's club rooms yesterday afternoon at 2:30 o'clock. This was the last opportunity for new members to enter the class and 13 young ladies availed themselves of the opportunity. The usual work was carried on under the instruction of Miss Alden, and a capable corps of assistants. The class will continue to meet each Wednesday at 2:30 o'clock until the course of eight lessons is completed. Much interest and enthusiasm has been in evidence at each meeting and the pupils are rapidly becoming adept.

Don't hesitate. It's Biva tea you want. A trial will prove that Biva means assurance of satisfaction. Adv. 21

A VARNISH PUZZLE

Refuses To Save Idiot Baby By Operation

The Lost Secret of the Old Time Makers of Violins.

IT MAY NEVER BE DISCLOSED.

This Amazing Mystery, That Defies the Modern Experts, is the One Thing That Keeps Them From Surpassing the Work of the Ancient Masters.

There must be thousands who wonder why modern manufacturers cannot reproduce the valuable old violins we read so much about, says the Musical Courier. When Xsare recently inspected the wonderful collection of violins owned by Rudolph Wurlitzer and played on a Ruggieri, a Stradivarius, a Guarnerius, an Amati, and so on, some of our readers may have asked why American makers do not copy those old masters. We reply that every detail of the great Italian makers has been studied for more than 100 years.

We have discovered every secret of the old masters except the recipe for their varnish. That is the mystery. "Surely," claim some of our readers, "this is a secondary consideration. If you have good wood well put together you must have a good violin, no matter what the varnish is!" We shall see. Hills of London, the well known violin experts and makers, in the book "Antonio Stradivari—His Life and Work" say:

"Through the wood and also construction and dimensions be perfect, the result will be astonishingly bad if the instrument be badly varnished. Hence we are disposed to classify the relative importance of material, dimensions and constructions and varnish as follows: First, varnish; second, construction and dimensions; third, material."

So here we have an acknowledged authority stating that the most important factor in the tone of a good violin is the varnish. And does the quality of the lost varnish mean that the old makers were men of genius? Not a bit of it. Apparently they were just good workmen whose product could be equaled today in any civilized country if the varnish could be discovered.

That this secret should be lost is one of the amazing facts of history. It is inconceivable to us that 200 years hence no one will be able to supply the shelves of varnish that can be found in any of the great museums today.

Just this is what happened to the varnish used by the Cremona makers. It has simply been forgotten; that is all. It was no secret a few hundred years ago. We find chairs, tables, cabinets and bedsteads of the period covered with the golden, lustrous varnish of Amati and Stradivari.

The old violin makers used it because it was cheap and easy to procure. It began to go out of general use in the sixteenth century because it was found to be too soft for the wear and tear of furniture. It was still used by the violin makers, however, none of whom seems to have left the recipe. Perhaps they did not know it. The average cabinetmaker today need not know how to make the varnish he buys by the gallon. Thus the varnish which was used by the whole Italian nation for two centuries is now an unknown mixture of mysticisms.

When came the gums and oils of the old Italian varnish? We have reason for believing that they were not indigenous to the Italian soil. We know that much of the maple used by the violin makers of the day came from Turkey. Stradivari often used the straight grained maple of the Italian Alps for his cheaper instruments. For his wealthy patrons he used a beautiful curly maple that came from Turkey. Why from Turkey? The reason is obvious. Venice and Genoa held command of the eastern trade of Italy. It was cheaper to import maple to Venice by sea than to carry it overland from northern Italy. But when the Venetian our makers came across a piece of maple too curly to be strong enough they sold it to the violin makers. The beautiful backs of the best Stradivarius violins, therefore, are made from wood that the car makers rejected.

Now, if the gums and oils of the old varnish came from the orient it would become more and more difficult to procure them in proportion as the Venetian trade diminished. History confirms this theory. The Turks waged a war against the papal and powerful republic of Venice from 1645 to 1669. For the first thirteen years of the eighteenth century Venice had a certain amount of peace. But in 1718 Venice, by the peace of Passarowitz, abdicated her rank in Europe, became a nonentity in politics and saw her trade begin to dwindle. Venice, the former mighty queen of the Adriatic, lost her great oriental trade.

Is it any wonder that the oriental gums should disappear from her imports when the cabinetmakers no longer used them? The little that the violin makers needed was too small to keep the trade alive. Then in 1750 a patent was given by the king of France to Simon Martin for a period of twenty-five years for the newly discovered process of making the much more durable and glossy copal varnish. That was the finish of the old Italian varnish, wrongly called "Cremona" varnish.

If the secret or lost process of the old varnish makers could be discovered we believe that Guarnerius and Stradivarius and all the rest of them would lose the title of geniuses they have so long enjoyed and be

Shoes For Those Outings

It's a mighty convenient thing for any woman to have at hand for those occasional outings or week end trips a real stylish knock-about shoe, made especially for outing wear. It's one of the things which helps one to get the most good from an outing.

Prepare for your next day off by getting your size in an Utz & Dunn sport shoe. It is a shoe that stands the wear and resists the strain of the most strenuous exercise and has a jaunty look of style that lasts because it holds its shape. Suppose you try a pair.

AVIATION RECRUITS TAKEN

AERO BRANCHES OF REGULAR ARMY REOPENED, BUT NO FLYING INSTRUCTIONS GIVEN.

Opportunity For Men In This Branch to Earn Commissions and Then Fly; One Man Already Joined—Seven Sent to Sloum This Morning.

The resumption of recruiting for the aviation section of the signal corps and the acceptance of six men for the regular army marked yesterday at the local recruiting station, 176 Main street.

Recruiting for the aviation section of the signal corps, which has been closed for some time, has been resumed to men who possess the necessary qualifications. But the army officials want it distinctly understood that men who join this branch of the service will not be given any instruction in flying, because that duty is reserved for the commissioned officers only. However, they say that there are excellent opportunities for men of deserved ability to gain commissions in time. One man, Clinton S. Birdsall, of Oneonta, has already availed himself of the new opportunity.

The following list shows the kinds of tradesmen needed for the aero and balloon squadrons:

Blacksmiths, buglers, clerks, carpenters, electricians, gas works employees, lithographers, metal workers, moulders, photographers, propeller testers, radio men, stenographers, tool makers, vulcanizers, aeronauts, cabinet makers, cooks, cordage workmen, engine repair men, machinists, magnet repair men, mechanicals, packers, painters, riggers, stock men, truckmasters, welders, boat builders, chauffeurs, carpenters (boss), draftsmen, laborers (skilled and unskilled), motorcycle repair men, airplane mechanics, engine testers, propeller makers, pattern makers, plumbers, sail makers, saddlers, tailors.

This morning seven men were sent to Fort Sloum to commence their training:

Infantry—William Fuhr, Portlandville; George V. Strong, Meridale; Otis Elms, Portlandville; Clyde N. Lewis, Milford; and William Daniels, Milford.

Signal Corps—Clinton S. Birdsall, Oneonta.

Hospital Corps—Delbert F. Layman, Oneonta.

Two men were rejected yesterday.

Securing Groups for Depot Unit.

Several enlistments were made in the depot company of Company G last evening and several influential men are securing groups to join the company. Directions have been issued from the adjutant general's office that the company be mustered in as soon as the minimum number of 50 is secured. It is hoped that this may be next week. The serious consideration of citizens is invited to the importance of the immediate organization of the unit and the desirability of joining the number who are willing to take this small part in the public service.

One of the applicants accepted last evening is the son and the grandson of soldiers of the Civil war, the son of a Union nurse and the father of a present member of Company G. This display of patriotic heredity is commendable and is worthy of being followed by others. The services of former members of the National Guard will be valuable and the early enlistment of such is solicited.

Recruiting officers will be at the store of Baker Bros. this evening prepared to give the applications of patriotic citizens and it is hoped that the number will raise the membership much nearer the required minimum.

CHURCH FAMILY REUNION.

Held at Home of H. E. Church, West End Avenue, Yesterday.

The Church family reunion was held yesterday afternoon at the home of Herbert E. Church, 5 West End Avenue. Thirty members of the family from Gilbertville, Guilford, Otego and Oneonta were present to enjoy the hospitality of the Oneonta family. A sumptuous dinner was served and various games indulged in and the day passed all too quickly. At a business meeting, held in the afternoon, the following officers were elected for the ensuing year: President, Bert Church; Otego, secretary and treasurer, Miss Vida Church; Oneonta; historian, Lynn Church, Oneonta. The next reunion will be held in July, 1918, at the home of Hamilton Church in this city.

Past Noble Grand in Hartwick.

The Past Noble Grand Association of Otego county held a meeting yesterday at Hartwick, where they were royally entertained at dinner in Odd Fellows' hall by the Past Noble Grand of that place. Following the dinner a business session was held and it was voted to hold the next meeting at Milford the last Wednesday in September.

Among the visitors present were Mrs. Frank McFee and Mrs. Harry Koehler of Oneonta, Mr. and Mrs. Fred Phelps, Miss Frederica Phelps, Mrs. Nettie Elliott and Mrs. Hayes of Sidney; Mrs. Grace Haight, Mrs. Perry R. Bennett and Mrs. Grace Merriman of Milford and Mrs. Quail of Richfield Springs.

W. C. T. U. Meets.

The Woman's Christian Temperance union met yesterday afternoon in the headquarters at 321 Main street. Twenty ladies were present to hear an interesting and instructive talk by Mrs. Alma Webster on "Sunday School Temperance Work." At the business session, it was decided to hold an election of officers at the next monthly meeting, which will be held in the Y. M. C. A. building, as the present headquarters were closed after the Y. P. B. meeting held last evening. It was voted, and the flower committee ordered, to send flowers to the shut-ins. A helpful meeting was reported by all.

OUR BOYS ABROAD RAID CANDY SHOPS

But "Sammies" Give Gold In Exchange For Sweets.

A "FOUNTAIN PEN ARMY"

Frenchmen Note the Number of Those Articles Carried in the Blouse Jackets of the Americans—Yankess Warm Up to Canadians—Naval Officers in White Take Eye of Fair Parisiennes.

The demand for candy is strong in France from the American troops, but it has been met satisfactorily, although the boys judge the prices high. The beer they generally condemn, not for its quality only, but for its warmth.

"Don't seem much of a place," was the comment, followed by the anxious query, "Can we have a better time in Paris?"

Money changing involves mental anxiety, but 5 francs are offered as the equivalent of a dollar by the shopkeepers and readily accepted. It surprised the French to be told that these Americans still were paid in gold.

France began to recognize the value of athletics a few years before the war, which confirmed their importance. It is possible the new American allies will provide France with a long felt want in popularizing baseball.

"A Fountain Pen Army," chaffed a Frenchman as he noted the number of those articles that the Americans carried in their blouse pockets and seemed to be part of their equipment.

"I am an old man for the army," said a corporal, answering a query on what motive brought him to France, "but I have come to help wipe kaisers off the earth."

The American camp in France is splendidly situated on high ground and has been built within the month. It is lighted by electricity and has a fine water supply. The Y. M. C. A., which has installed a tent at the landing place, will open a large hut soon. The camp has taken on an American atmosphere.

It failed in no respect to meet the requirements of the overflowing tide of newcomers. It supplies picture postcards in large numbers and there is an "American bar," but American in name only. Ice cream soda is sought in vain.

An old looking French territorial who is on sentry duty along the docks, his hair grayed by three long years of service, beamed on the Americans, doubtless thinking his days of labor were now drawing to a close. The women smile and feel their hearts lighter as they watch this fine pledge of the sister democracy's aid.

In the arrival of the troops children chased pennies that the American boys threw among them from crowded decks as the ships passed along the quays and rejoiced over every band as it headed its regiment, for it is seldom that bands are heard now in France.

Chum at Once With Allies.

The fraternization of the Americans with the English, Canadians, Australians and French is remarkable, and the new arrivals are being received everywhere with open arms and open hearts.

Last month nearly all the British troops not having near relatives in the British Isles have been coming to Paris on leave, and so the newly landed Americans find plenty of comrades able to speak their common language.

The Yankees warmed up particularly to the Canadians, among whom are many Americans, but the greatest surprise came at the way the French officers and police fraternize with their new allies. The warmest feeling exists between the French and British soldiers and officers, of course, but when they first met three years ago as allies they were too busy fighting for their lives to spend much time in friendly intercourse.

The Americans, however, are landing just at the time when the allies have the Germans "on the hip," and the French are throwing off their cleanliness to welcome the Yankee tars and marines affectionately.

Another factor is that after three years' contact with the British nearly every French person knows a few words of English—hello, cheer, good luck and similar expressions—and they are using them overtime on the Americans.

Paris Women Charmed.

The appearance of American naval officers in white duck summer uniforms in the smart Paris restaurants causes gasps of astonished delight, especially among the fair Parisiennes, who admire the chic, cool appearance of the officers.

Since the arrival of the Americans the police have had to wink at the law prohibiting singing and music in cafes and restaurants, as it is impossible to prevent the sailors, marines and regulars from gathering in quartets and teaching the Canadians and Australians the newest ragtime airs direct from America.

Minerals in New York City.

Thus far the list of metals found in New York city consists of eighty-three specimens, or 110 varieties, and is probably exceeded by no other single locality in the United States. In fact, the territory lying within fifty miles of the city hall is considered by many to be the greatest mineral collecting locality in the world.

BE READY.

Every man and woman who has achieved a real success in any way, from the forging of a horseshoe to the saving of a soul, succeeded through being ready when the call came.—Robert Collyer.

MEASURING A DRAFTED MAN.

He Must Come Up to Specifications Given Below to Be Accepted.

The doctors who examine the men for the draft army must follow the table given below for weight, height and chest measurements, all chest measurements to be taken on a level just above the nipple:

Height.	Weight.	Chest Measurement.
Feet.	Inches.	Pounds.
5 1-12	61	118
5 2-12	62	120
5 3-12	63	124
5 4-12	64	128
5 5-12	65	130
5 6-12	66	132
5 7-12	67	134
5 8-12	68	141
5 9-12	69	148
5 10-12	70	155
5 11-12	71	162
6 0-12	72	169
6 1-12	73	178
6 2-12	74	182
6 3-12	75	190
6 4-12	76	197
6 5-12	77	204
6 6-12	78	211

The following variations below the standard given in the table are permissible when the applicant is active, has firm muscles and is evidently vigorous and healthy:

Height.	Weight.	Chest at Expiration.
Inches.	Pounds.	Inches.
61 and under 64	1	8
65 and under 68	2	10
69 and under 72	3	12
73 and under 76	4	15
77 and under 80	5	20
81 and upward	6	24

To be acceptable men below six feet four inches in height must be of good physique, well developed and muscular.

Variaions in weight above the standard are not disqualifying unless sufficient to constitute obesity. Unless exceptionally well proportioned men above six feet six inches in height should be rejected.

Montezuma's Castle.

In the Verde valley, twenty-six miles southeast of Clarkdale, Ariz., is a remarkable ruin known as Montezuma's castle. It is one of the finest and best preserved monuments left by a people known as the ancient cliff dwellers. The castle is on the right bank of the beautiful tree fringed Beaver creek, three miles from the inland town of Camp Verde, and occupies a natural depression in the vertical limestone cliff 840 feet from the stream and eighty feet above it. The castle proper is five stories, each story receding by several feet, and is substantially built. The masonry is admirable when it is considered the rude stone implements with which the builders had to work. The stones are squared and faced and laid in cement that has stood the wear of centuries. The hintelers over the doors are of hewn cedar. Seen from a distance, it is very striking. In the perpendicular front of the white and gray and yellow limestone cliff, about halfway up, is a huge circular natural cavity, and therein stands the noble pile of Montezuma's castle.—Exchange.

Record of Passenger Trains.

During the month of June there were 66,002 passenger trains run on the steam railroads of the state of New York, and of these 50.5 per cent were on time at terminals. The average delay of late trains was 23.5 minutes and of all trains 1.6 minutes. The Delaware and Hudson had 77.4 per cent of its trains on time, the Ontario and Western 74.3 per cent, the Ulster and Delaware 72.9 per cent and the D. L. & W. 83.9 per cent. In view of the large freight traffic which has interfered seriously with passenger trains on many roads, the above showing is very satisfactory.

Those who have discovered the flavor and quality of Otego coffee say to their friends: "You must try Otego." Just convince yourself once—the taste tests. Talk it over with your grocer.

GUARDSMEN AT SHERMAN LAKE.

Members of Company G Given Dance and Entertainment.

After being carried to Sherman lake in three large auto trucks and eight private cars last night, the members of Company G were given a dance and an entertainment that did not break up until midnight.

The evening's pleasure was started with a drill by the company and selections rendered by their quartet. Then Dan Sherman, the host for the occasion, entertained the boys with special music that he had provided and the presentation of a warlike drama.

The balance of the evening was spent in dancing, which included the round dance, the square set, the one-step and other modern and old-fashioned dances. The gathering broke up around midnight.

Louis Stanton of Oneonta carried 39 of the boys over in his truck; Dan Sherman took 39 in his; and W. H. Johnson brought 20 in his small truck. About 60 of the guardsmen were carried in the private cars.

Boy Scouts Camp.

Triop 1, Boy Scouts, H. G. Wheeler scoutmaster, camped out last night in Wilber park. About 15 husky lads departed in the late afternoon for the park with the necessary "cuts" and after building fires, soon had a supper prepared that made the boys' mouths water. The usual sports were indulged in during the evening until it was time to "turn in" when the boys rolled themselves in their blankets and made successful or unsuccessful attempts to get to sleep. The party breakfasted this morning and all reported a thoroughly enjoyable outing, despite the "sneakers."

Eliett Reunion.

The Eliett reunion will be held at the home of Mr. and Mrs. Andrew Whitney at Laurens Saturday, August 11. All relatives are invited to attend.

Bliss Reunion.

All members of the Bliss family are urged to be present at the reunion, to be held August 4, at the home of Cleveland Salisbury, South Hartwick.

HAIR HINTS

Helpful Advice for Care of the Hair Worthy the Attention of Everyone Who Would Avoid Dandruff, Itching Scalp, Gray Hair and Baldness.

If your hair is getting thin and you are troubled with dandruff or itching scalp, get from your druggist a bottle of Parlan hair cream. This helps to prevent baldness and keeps the scalp clear.

"Before going to bed I rub a little Parlan hair cream into my scalp," says a woman whose luxuriant, soft and shiny hair is greatly admired. "This keeps the hair from falling out and makes it easy to dress attractively."

Everyone knows Sage is good for the hair, but be sure to get Parlan hair cream (Gill's), for this brand will not stain the hair and is delicately perfumed. H. B. Gill, Oneonta, N. Y.
